

SUNNY SHARMA

Full Stack Developer (MERN) | React Developer | Software Engineer

Pune, Maharashtra, India | +91 87676 08240 | sunnytarunsharma67@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#) | [TryHackMe](#)

SUMMARY

Full Stack Developer with hands-on experience building web applications using React.js, Node.js, Express.js, and MongoDB (MERN stack). Comfortable across the stack — from responsive, component-based frontends to REST APIs, authentication, and database design. Strong problem-solving foundation in JavaScript, data structures, and Git-based collaborative workflows, paired with applied knowledge of secure coding (OWASP Top 10) from parallel Cyber Security study. Quick learner, self-driven, and focused on writing clean, maintainable code. CGPA 9.10/10.

SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, C, SQL

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Vite, Framer Motion, Three.js, Responsive Design

Backend: Node.js, Express.js, REST APIs, JWT Authentication, MongoDB

Tools & Practices: Git, GitHub, Postman, Docker, Kubernetes, Linux, Agile/Iterative Development, Debugging **Security:** OWASP Top 10, Secure Coding, Burp Suite, Nmap, Wireshark, Kali Linux

EXPERIENCE

Self-Directed Software Development — Independent Projects Oct 2025 – Present | Pune, India

- Designed, built, and deployed 3 full-stack and frontend web applications independently using React.js, Node.js, Express.js, and MongoDB
- Built REST APIs and JWT-based authentication systems for user management and dynamic content delivery
- Wrote and debugged JavaScript across frontend and backend, applying core data structures and problem-solving skills
- Followed Git-based version control and iterative development practices on every project
- Applied OWASP secure coding principles learned through parallel Cyber Security coursework

PROJECTS

SparkHotstar — OTT Streaming Platform

HTML5, CSS3, JavaScript · Solo project

Oct – Dec 2025

Live demo: sunny8240.github.io/SparkHotstar/

- Built a Netflix/Hotstar-inspired streaming platform from scratch with dynamic content rendering and a reusable component-based architecture
- Implemented watchlist, watch history, JWT-based authentication, and real-time search functionality
- Designed a custom SPA routing system in vanilla JavaScript, without external frameworks

Travel Bharat — Tourism Discovery Platform

React.js, Node.js, Express.js, MongoDB, Tailwind CSS · Solo project

Jan – Apr 2026

Live demo: travelbharat-web.vercel.app/

- Built a full-stack tourism platform end-to-end (frontend, backend, database) enabling state-wise and city-wise destination discovery
- Designed JWT authentication with a role-based admin dashboard for content management
- Built REST APIs in Express.js with MongoDB, including search and filtering, and deployed the app on Vercel

Professional & Academic Websites

HTML5, CSS3, JavaScript · Freelance / solo work

2025

- Delivered responsive portfolio and academic websites for professionals and university faculty
- Structured content for publications, achievements, and professional profiles, focusing on accessibility across devices

CYBERSECURITY PRACTICE

Hands-On Security Labs — TryHackMe

2024 – Present | Remote

- Completed 200+ hands-on labs covering Web Security, Penetration Testing, SOC Operations, and DFIR
- Performed vulnerability assessment and enumeration using Burp Suite, Nmap, Wireshark, and Metasploit

EDUCATION

Bachelor of Science — Computer Science (Cyber Security)

Pimpri Chinchwad University, Pune

CGPA: **9.10 / 10**

Expected Graduation: 2027
